

CMM_MD1CS003_EURO6_4? Engine lubrication
information

Repair /Test by ECU/Engine management ECU/Standard parameter
measurements/Engine lubrication information
Family\INJ\CMM_MD1CS003_EURO6_4
\CMM_MD1CS003_EURO6_4_mesures_parametres_standard.s : 1293_01

Description	Value	Unit
Engine speed	794	rpm
OIL TEMPERATURE	36.660	°C
Oil pressure reference value	3.073	Bar
Oil pressure	3.073	Bar
Opening cyclic ratio of the engine oil pressure regulation control	63.200	%
Estimated rate of dilution of the engine oil	0.125	%
Estimated carbon content of the engine oil	0.000	%
Condition of the engine oil anti-dilution protection	Protection inactive	
Mileage interval calculated by the engine management ECU according to the driving profile	30000	km
